THE CHALLENGE

Every Minute Someone Doesn't Get Help

During disasters, thousands of victims fail to receive timely medical help due to lack of communication, coordination and accessible support systems.

140,000+

Deaths yearly

72 hrs

Critical window often missed

60%

Victims lack coordinated help

Why Everything Currently Fails

No Real-Time Coordination

Rescue teams operate in silos — no shared situational awareness, duplicated efforts, critical gaps

Zero Accessibility

Deaf, mute & non-English speakers completely excluded from emergency alerts

Deadly Delays

Manual triage wastes the critical 72-hour golden window for rescue operations

ResQNet — Intelligent Emergency Response Platform

ResQNet Core Platform

AI Triage Engine

Auto-prioritizes victims by severity using NLP + image analysis

- ✓ NLP severity scoring
- ✓ Image wound analysis
- ✓ Priority queue routing

Accessibility Layer

Sign language AI + multilingual alerts for all victims

- ✓ Sign language CV
- ✓ 40+ language alerts
- ✓ Hearing-impaired push alerts

Live Resource Map

Real-time tracking of ambulances, NGOs & hospitals

- ✓ Live GPS tracking
- ✓ Heatmap overlays
- ✓ Resource gap detection

Six Superpowers in One Platform

Real-Time Alerts

Push alerts to victims, responders & hospitals within seconds

AI Severity Analysis

ML model auto-triages cases — no human bottleneck

Sign Language AI

Live CV translation for deaf and mute victims

Emergency Mapping

Heatmaps of disaster zones & live responder positions

Predictive Analytics

AI predicts high-risk zones BEFORE disasters strike

Multilingual Support

40+ languages — no victim left behind due to barriers

Built With Modern, Scalable Technology

AI / ML Layer

TensorFlow · OpenCV · NLP Engine · MediaPipe

Cloud Infrastructure

AWS (EC2, S3, Lambda) · Firebase · PostgreSQL

Frontend

React.js · Tailwind CSS · PWA · WebRTC

Backend

Node.js · Express.js · REST APIs · Socket.io

What Changes When ResQNet Goes Live

3×

Faster Rescue

Reduced response time through AI triage & real-time coordination

80%

Less Miscommunication

Unified platform replaces fragmented phone & radio systems

100%

Accessibility

Every victim reached regardless of language, hearing, or location

Future Roadmap

ResQNet

Saving Lives with Intelligence, Speed & Inclusion
